

Both Charles and Betty Karol Wilson, owners of the Apple Blossom Inn B&B are avid amateur gardeners. Of course, pink and white blossoms from apple trees and crabapple trees are found on the premises! Spring is spectacular with over 1000 tulip and jonquil bulbs in bloom. Roses, a terraced lawn, and the gazebo are found in the second backyard. Summer is resplendent with daylilies, geraniums, petunias, begonias, coral bells, and lantana. Fall finds the yard bursting with colorful gold and purple mums and yellow crocus.

Charlie's Berry Garden provides strawberries, blackberries red and golden raspberries, gooseberries, currants, and elderberries for guest breakfasts.
